

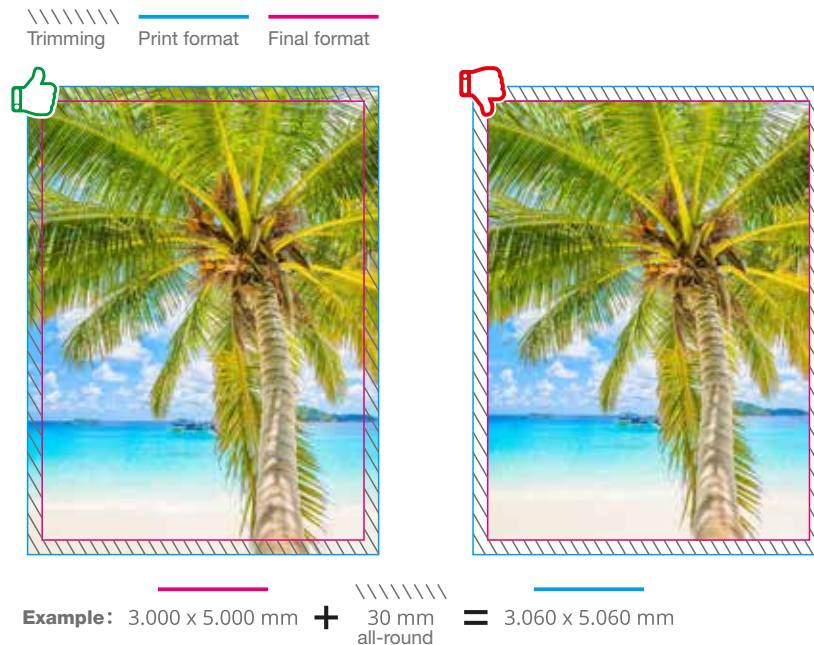

GRAPHIC DATA REQUIREMENTS

Formats for wall panels

All graphics must be created at a 1:1 scale (original size) to match the respective **panel dimensions without bleed**.

Formats for banners and stretch frames

All graphics must be created at a 1:1 scale (original size) to match the respective dimensions, **including a 30mm all-around bleed**.

Markings and crop marks

Please ensure that **no** markings, crop marks, or color control strips are included in the graphics.

Resolution for image files:

Small-format prints (smaller than 5m²): approx. 70 dpi to 120 dpi at a 1:1 output size.

Large-format prints (larger than 5m²): approx. 50 dpi to 80 dpi at a 1:1 output size.

Fonts

Fonts embedded in graphics must be converted to outlines.

Printing inks to be applied

CMYK or grayscale

RGB, Pantone, and spot colors can only be simulated and must be converted to CMYK

Metallic colors such as gold or silver are not possible

Deep black should have the following values: C50 / M50 / Y50 / K100

File formats

Please save the files as PDFs without recalculating the image resolution.

Images can be processed in JPG or TIFF format, but only as standalone image files without text.

Please save all print files **individually** and not as a combined PDF file.

Use the numbering provided in our graphic or stand layout.

Data transmission

Please send the files to the respective contacts or to info@mlg-messebau.de.

For large print files, we recommend sending your files via FTP, Dropbox, or the online service www.wetransfer.com.

Copyright/Liability

Graphics and other materials that are to be created, assembled, or installed by mlg GmbH on behalf of the client are the responsibility of the client. mlg GmbH does not verify any infringement of intellectual property rights or the accuracy of the materials. The client shall indemnify mlg GmbH from any potential claims for damages arising from legal violations or typographical and color errors.

Information

If you have any questions, we are always available at phone: +49 8131/66998-0 or via email at info@mlg-messebau.de.
