

GRAPHIC DATA REQUIREMENTS

Formats

All graphics must be laid out to the respective **plate size** in a ratio of 1:1 (original size).

Markings and cut marks

Please note that there are **no** markings and crop marks in the graphics.

Colors

We print with standardized color profile settings (ISO Coated V2 ECI).

Print data in spot colors, RGB and LAB color modes are automatically converted to CMYK color mode.

Fonts

Fonts that are embedded in graphics must be converted to paths, because very often special fonts are used, fonts are used, which we do not have in our database.

File formats

.pdf - printable PDF in the desired final format with embedded graphics and fonts transformed into paths is for reproduction an optimal format

.tif - format, must be saved with CMYK color information

.eps - with integrated TIF, must be saved with CMYK color information

.eps - Postscript format can be generated by Adobe Illustrator, please convert fonts to paths.

ATTENTION! We need the vector format.

.ai - Adobe Illustrator proprietary format. Please convert fonts to paths!

.jpg - JPG data can be compressed very heavily. The more compressed the file is, the greater the the greater the loss of quality in the printout.

Print data

Basically, we process PDF data.

Colored pixel images contained therein should be saved as CMYK and fonts should be converted to paths.

Create all colors in CMYK color mode. RGB information is converted to CMYK

into CMYK information. We assume no liability for any resulting loss of quality.

For optimal reproduction in large format printing on a scale of 1:1, a resolution of

of at least 72 dpi in the final format is required.

Data transfer

Send the data to the respective contact person or to info@mlg-messebau.de.

For large print data, we recommend sending us your print data via FTP, Dropbox or the online service

www.wetransfer.com to send us your print data.

Copyrights/Liability

Graphics and other documents that are to be produced, assembled or set up by mlg GmbH on behalf of the customer

are the responsibility of the customer. mlg GmbH does neither check for an infringement of industrial property rights

industrial property rights nor the correctness of the documents. The customer shall indemnify mlg GmbH from all possible

claims for damages due to infringements of rights or spelling and color mistakes.
